

The power to weather the weather.

Thunderstorms. Tornadoes. Hurricanes. Blizzards. New Jersey has seen it all. For over 100 years, PSE&G has been there, providing warmth, light, comfort and security to millions of people. Giving our customers safe, reliable service is what we do best. In fact, thanks to a decline in outages, faster response times and fewer gas leaks last year, PSE&G received the prestigious ReliabilityOne™ Award for outstanding record of service, for the third year in a row. It's this ongoing tradition of rising to the occasion that makes PSEG a leader in service and technology—the same tradition you can count on tomorrow no matter what nasty storm the weatherman has to report.

PSEG

We make things work for you.
